## DETAILED ACTION

### *Allowances*

1. Claims 1-28 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As of the date of this office action, the examiner has not located or identified any reference that can be used singularly or in combination with another reference including the closest prior art of Momchilovich et al. (US 5,840,783) to render the present invention anticipated or obvious to one of ordinary skill in the art.

The closest prior art Momchilovich et al. (col. 8, line 57 to col. 9, line 22) discloses the pressure-sensitive adhesive double-sided coated foam tape comprising acidic and basic monomers containing pressure-sensitive adhesives (col. 3, line 17-47). However, Momchilovich et al. are silent on a double-sided coated foam tape having a foam core comprising first and second opposed surfaces, the foam core comprising an acidic polymer derived from a first group of monomers comprising at least one acidic monomer, and a basic polymer derived from a second group of monomers comprising at least one basic monomer. Momchilovich et al. are also silent that the adhesive on both side of the foam core tape can be different adhesive material. Therefore, it would not be apparent to one of ordinary skill in art to use the double-sided coated foam tape

teachings in Momchilovich et al. to obtain the present invention. The invention of claims 1-28 is allowed.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
